

April 24, 2020

Dear FRIS members:

Subject: About correspondence when new type coronavirus infection is suspected

At Tohoku University, if a student or faculty member is suspected of being infected, the person in charge of the department concerned should contact TU headquarters. Therefore, if you are a report target person, please contact FRIS COVID19 headquarters for the following matters.

FRIS COVID19 headquarters: fris-covid19@grp.tohoku.ac.jp

1. Report target person

(1) Person who is suspected of being infected

- ① Those who cohabitants were affected
- ② Those who contacted the call center in Sendai or Miyagi Prefecture and received instructions
- ③ Those who have been examined by a medical institution as instructed by the call center

(2) Person who is considered to be a close contact (specified by the public health center)

(3) PCR test taker

(4) Person who is furloughed

- In case of suspected close contact with the infected person (if you talk for more than 2 minutes within 2 meters)
- When the infected person stays in the same space (in the same room) where he / she was born for a long time (more than 2 minutes) on the day of the stay (in a sealed space, even a short time is not possible)
- If the building where the infected person has been living is staying for a short time on the day when the infected person is staying and using shared items (PC, table, sofa, pot, refrigerator, remote control, etc.)
- When the infected person has stayed for a short time and is using a shared article after the day when the infected person stayed in the same room (in the same room).

2. Report items

- Name
- Job title
- Contents of report
 - Received instructions from the call center
 - Visited a medical institution under the direction of the call center
 - Results of PCR test revealed
 - COVID-19 cured
 - It was made a close contact by the public health center
 - A cohabitant suffered from COVID-19

Sincerely,

Toshiyuki Hayase
Director of FRIS
