2. Oral Presentation

2.1 General Format

- Presentation title must be in English. (A Japanese title is optional.)
- As a general rule, presentations should be delivered on-site; however, online or pre-recorded video presentations may be permitted under inevitable circumstances.
- Slides will be shared via HDMI output from each presenter's own PC.
- All oral presentations will be recorded and archived on Zoom. (Presenters can request exclusion from the archive.)
 - Access to archived presentations will be granted to TI-FRIS Fellows, FRIS faculty, and individuals approved by the secretariat.

※As this session is intended for reporting research outcomes to researchers from diverse fields and for fostering active interdisciplinary discussion, please strive to use clear and accessible expressions. For the oral presentation, it is effective to include challenges that cannot be solved solely through approaches in your own field, as well as questions you would like to pose to researchers from other disciplines.

Please prepare one slide that provides an overview of the issues and possible solutions (similar to a graphical abstract) to help facilitate discussion during the Q&A session.
