

A Taxi to the Twenty-Second Century

Thanks to a chance meeting in a taxi in Copenhagen in 2011, Cambridge now has two new Centres dedicated to ensuring that we humans avoid the pitfalls of our own technological success, and make the best of the opportunities of the twenty-first century (especially in artificial intelligence). Huw Price is Co-Founder of the Centre for the Study of Existential Risk (CSER), and Academic Director of the Leverhulme Centre for the Future of Intelligence (CFI). In this lecture he presents an insider's view of the history and vision of these Centres, and a message about the importance of making our own good fortune.

Huw Price 氏（ケンブリッジ大学パートランド・ラッセル哲学教授、および同大学リーバーヒューム未来知能研究センターのディレクター）をお招きし、「22 世紀の科学と社会」の予想と展望に関するセミナーを開催いたします。哲学者 Price 氏が AI やロボティクス分野と同時に Cold Fusion にも興味を持った視点にも触れます。
